Why do you enjoy dentistry and Dr. Jodi Funk's office?

As a child I was always in the dental chair getting another filling restored. I wanted to go into dentistry to help others prevent this from happening to them, along with making them feel at ease about needing dental work.

When I got into the field of dentistry, little did I know how amazing it could be to help people with not only feeling comfortable, but changing their life along the way – one smile at a time! I have been working for Dr. Funk for the past 9 yrs now and what I love the most is being able to have the confidence to tell someone about what we can do to change their smile. Giving someone the opportunity to smile again is a fulfillment I just could never live without!

What are your special interests?

When not at work, I enjoy spending time with my family. I also enjoy playing softball, hiking and baking.
